

*Do you know Him ?*

**Cédric Villani**

He is a :

- Mathematician
- political men

Work :

Now ,he is deputy

He worked on partial differential equations ;  
Riemannian geometry and mathematical physics.

He was awarded the “Fields Medal” in 2010  
(it's like the nobel prize but in mathematic)for his  
work on partial differential equations

\*If you want to know more about him, you can read his books or see him on TV or on Youtube

Mix between politics and mathematics :

He is charged on September 8th, 2017 by the Prime Minister Édouard Philippe of a parliamentary mission on the artificial intelligence of a duration of six month and have been elected to be a deputy.
