Submarine vocabulary

Find the different parts of the submarine,give them a number and write them in the following grid :

1			
2			
3			
4			
5			
6			
7			
8			
9			
10			

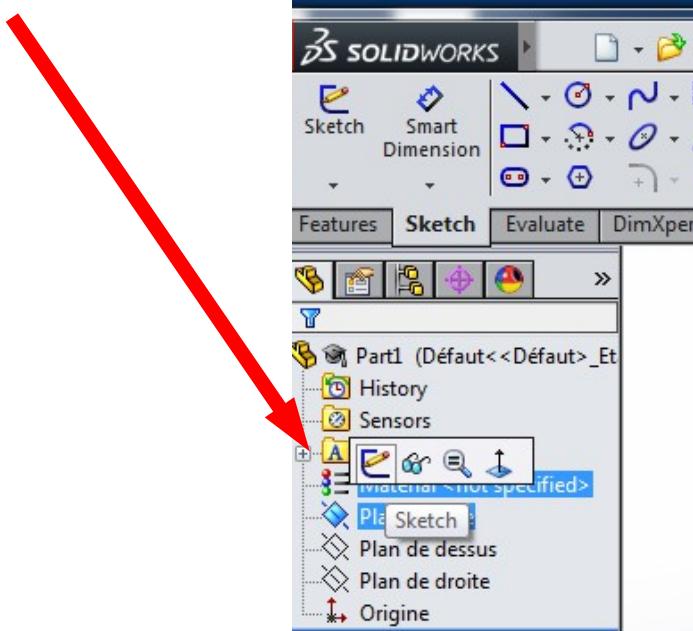

Draw an example of a dazzle ship :

3D conception

OPEN SOLIDWORKS

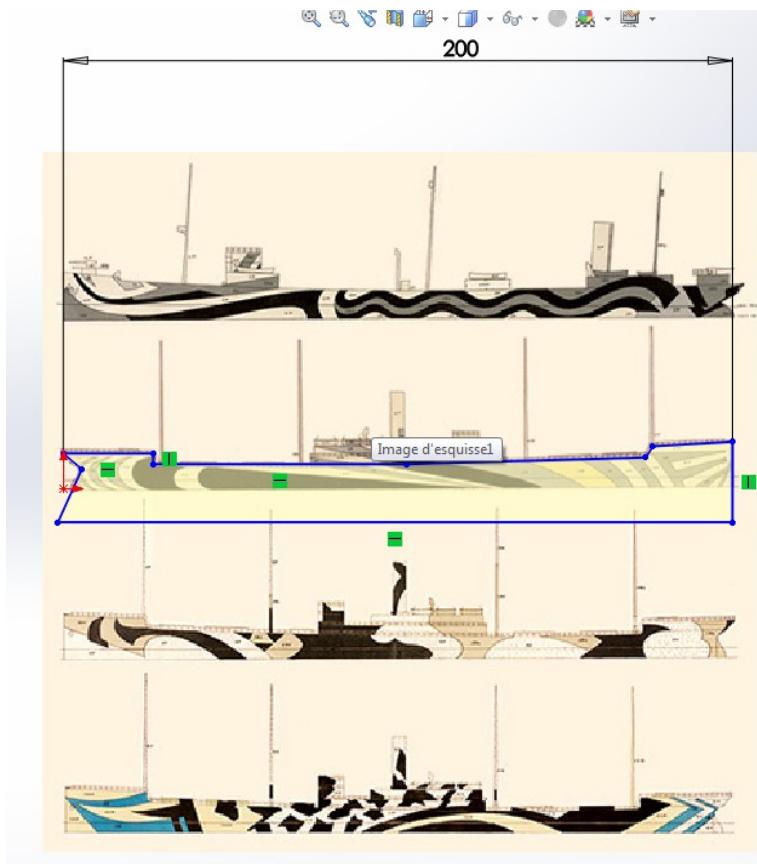

File/New/Part

Create a sketch on a front plane :

Insert a picture of a ship in this sketch

Tools / Sketch tools / Sketch picture

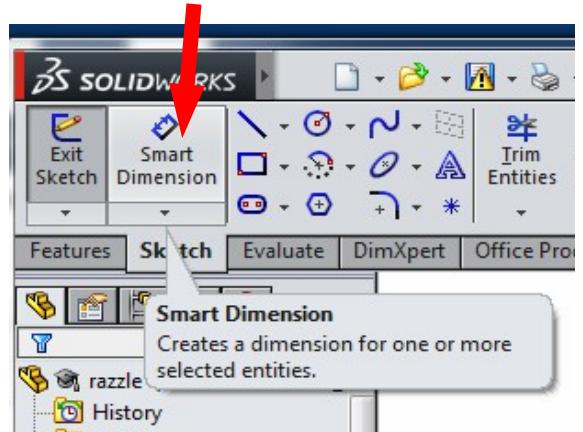

Shape the image :

Size  
Transparency

then draw the outline of the hull only  
the maximum length is 200 mm

Use the icon :  
Smart dimension

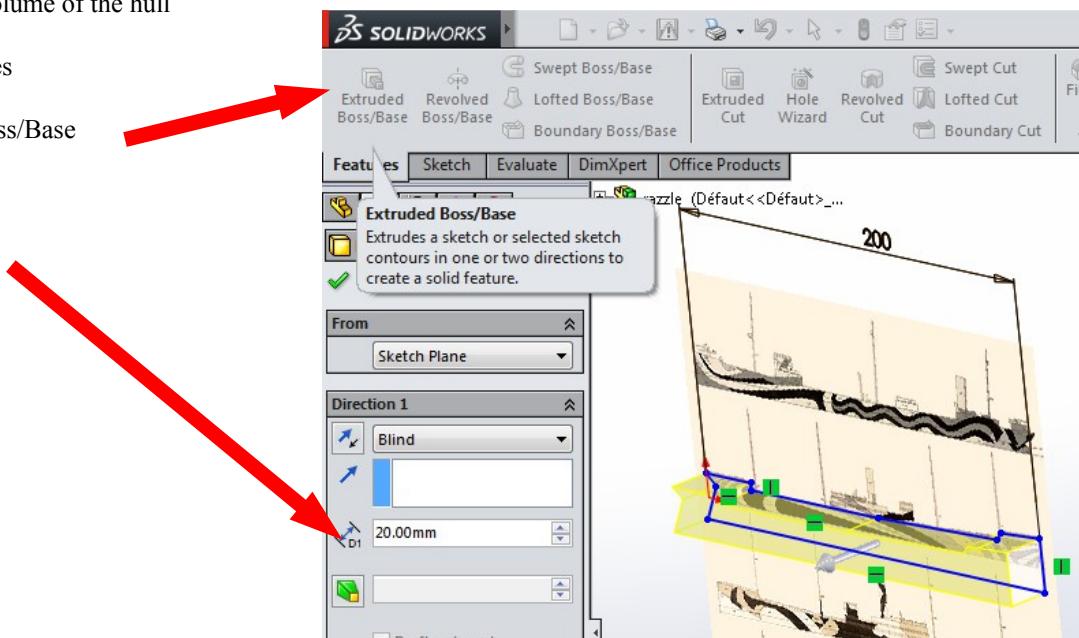

Create the volume of the hull

Tab Features

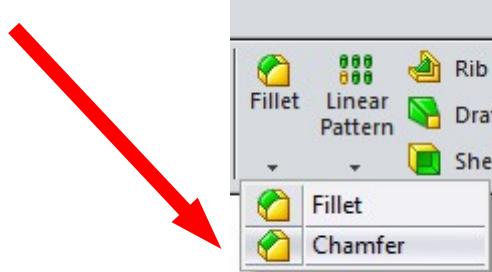

Extruded Boss/Base

D1 15mm

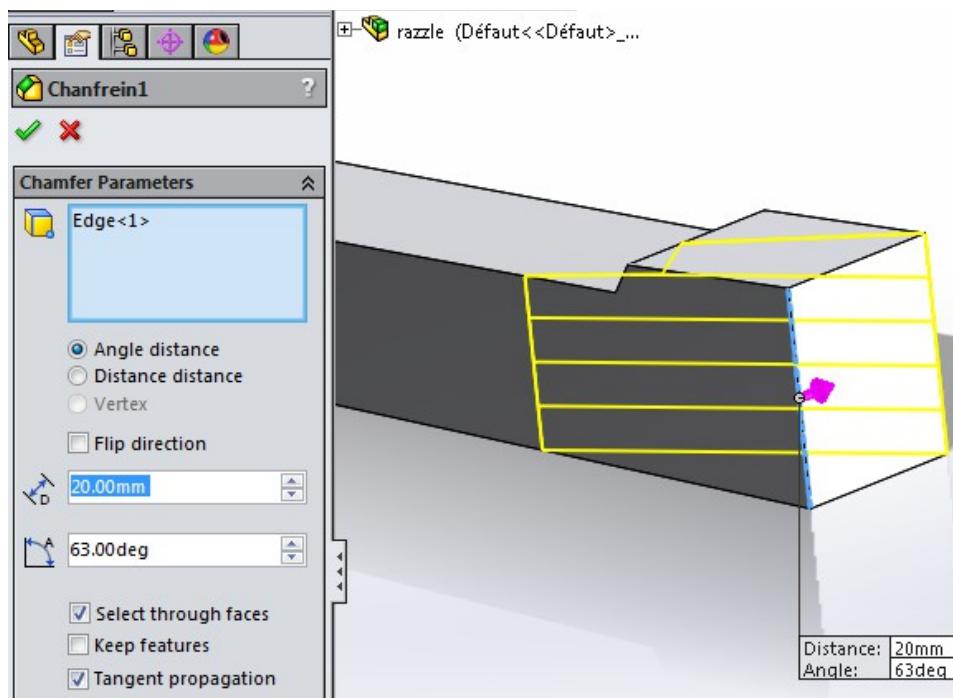

Create chamfers to shape the profile of the hull

Feature Filet / Chamfer

Adjust the distance and the angle

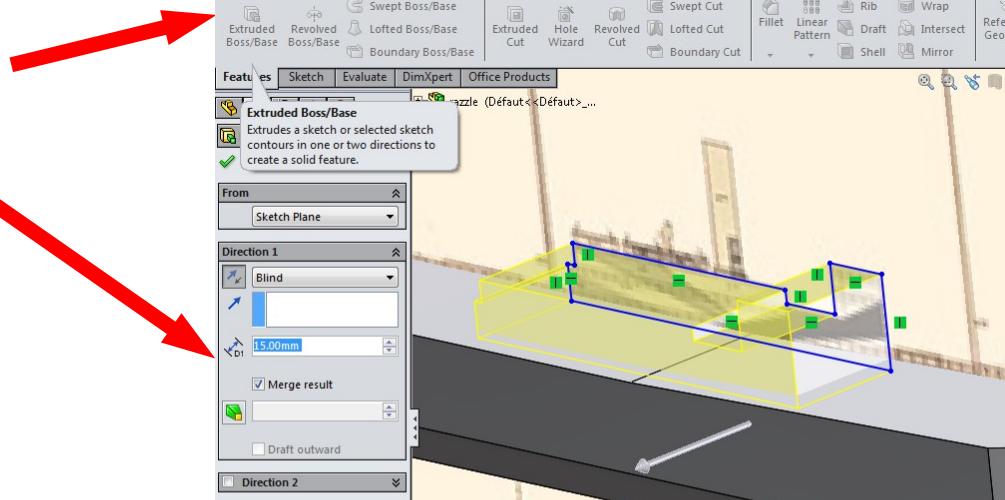

Create the volume of the superstructure

Feature

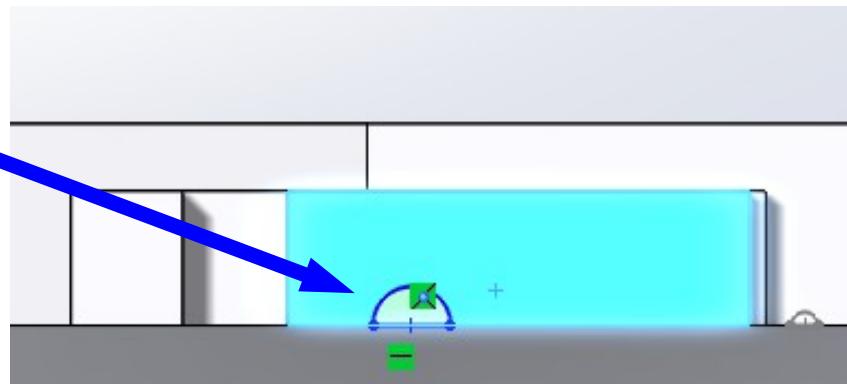

Extruded Boss/Base

D1 10mm

Create a sketch on the structures to draw the funnels

draw a closed outline

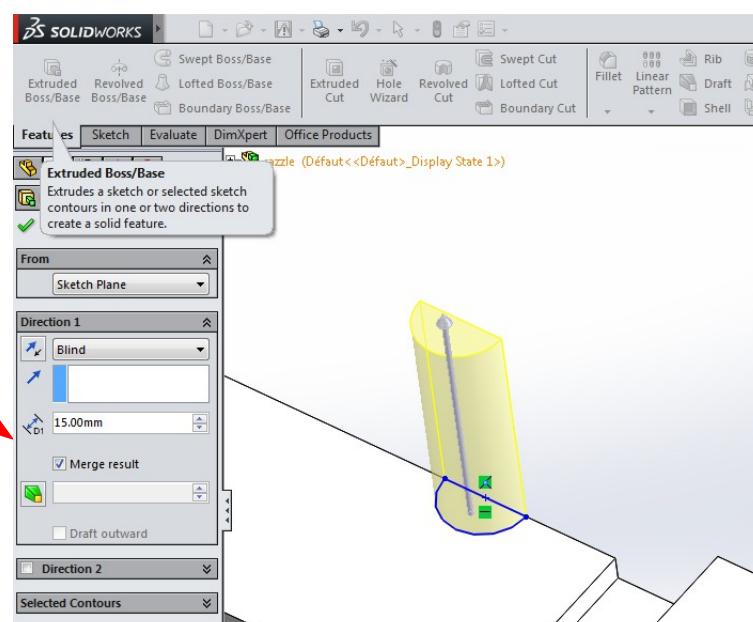

create the volume of the funnels or mats

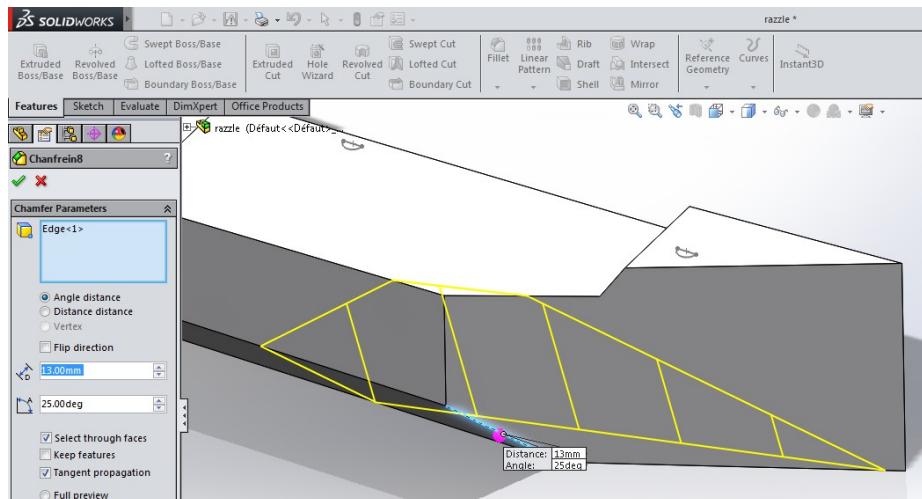

Feature

Extruded Boss/Base

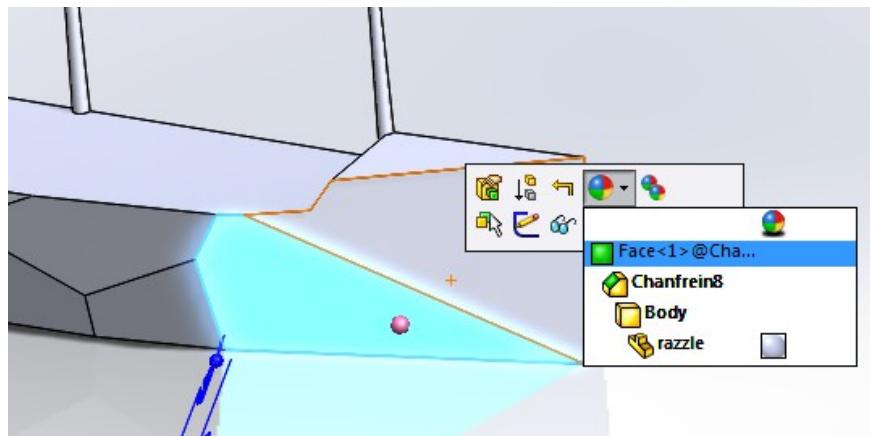

D1 15mm

Create a series of chamfers to shape your hull

Choose a color for each flat surface

Black
